VESSELS,  
YACHTSMEN, PLEASURE CRAFT USERS AND SEAFARERS**

#### ***WATERFORD ESTUARY, CHART NO 2046***

#### **QUEEN'S CHANNEL**

The Port of Waterford Company wishes to advise that construction work on the new Waterford City waste water treatment outfall pipe has commenced.

Construction works will include pipe laying in the river bed, earthworks, the installation of turbidity curtains around the proposed works area and diving operations.

The ABCO Marine jack up barge and attendant work boats will commence operations in an Easterly direction in the vicinity of the Belview Upper and Lower Buoys and will continue through May 2008.

When on operations, she will maintain a listening watch on VHF CH 14 and display shapes and lighting as per the I.R.P.C.S.

Accordingly, for safety reasons mariners are requested to keep well clear of the craft and to pass it slowly.

Captain Phillip Cowman,  
Harbour Master,  
Port of Waterford Company,
