Maintenance Ploughing Campaign

On or about Thursday the 24th of June, the vessel “Fastnet Sound” will conduct maintenance ploughing activities in the vicinity of Cheekpoint Lower Bar.

The vessel will maintain a continuous VHF watch on Channels 14 & 16, and will display regulation shapes and lights as per I.R.P.C.S.

All vessels approaching the area of operations should communicate with the vessel on Channel 14 and proceed with caution, giving the vessel a wide berth.

All mariners are reminded of their responsibilities under the International Collision Regulations and are requested not to anchor or moor in the vicinity of the works.

The ploughing is expected to last approximately 6 days.
